

QMS Financial Services educates you on the secret principles to get you there...

1. Stop the devastating effects of interest and taxation
2. Accelerate and eliminate your debt, including mortgage
3. Create a personal financial system for life
4. Create guaranteed growth
5. SAFELY accumulate retirement wealth
6. Have liquidity, use and control for today's needs and wants

By educating our clients on a process that they can engage in, and that gives them 100% control and certainty over their outcome, they can have true success with their financial goals. It's simple if you know what to do. By following our process, you'll have the surest way to accumulate wealth for now and for retirement. These principles will work for ANYONE.

STEP ONE: Get Your Financial House In Order. Set up your own cash-flow system with one of our cash-flow coaches. When you are held accountable, your chance for success increases dramatically!

STEP TWO: Redirect money that is being transferred to banks and other financial institutions into an entity that you own and control.

Focus on where wealth is created

- Eliminate ongoing interest being paid to others
- Redirect interest and principal back to your own personal banking system
- Put a stop to making the banks rich instead of you!

STEP THREE: Create Your Own Financial Banking System

Create your own financing vehicle for life! By becoming your own banker, you will enjoy the same benefits that financial institutions enjoy: Low borrowing rates and guaranteed interest growth and dividends. You'll also receive protection for your family as well as your growing wealth.
